### Win an iPad Mini

One lucky attendee per event  
will be drawn to win an iPad Mini.

**If you haven't already sold a home protected  
with fire sprinklers, it's only a matter of time  
before you do.**

Illinois has more than 100 communities that require  
fire sprinklers in new home construction.

**Illinois homebuyers are asking about home  
fire sprinklers. Are you prepared to answer  
their questions?**

Sprinklered homes are growing in popularity.  
According to a Harris Poll\*, 74% of U.S.  
homeowners said they'd be more likely to buy a  
home with fire sprinklers than one without.

\*2014 Harris Poll® conducted on behalf of the national nonprofit Home Fire Sprinkler Coalition.

### Get the facts about home fire sprinklers and a FREE lunch.

These fire departments invite you to lunch and  
a brief educational session to discover how fire  
sprinklers can add value to a home and peace of  
mind for today's safety-conscious homebuyers.  
Also, there will be a live  
demonstration of two  
fires — one in a  
sprinklered room and one  
in an unprotected room.

Attendees will receive  
home fire sprinkler educational brochures for  
themselves and their customers, as well as a FREE  
portable phone charger.
